

ARES NET

Good evening and welcome everyone to the Friday night ARES net. This net is dedicated to the memory of our friends George, W8FWG and Gary, K8YSZ, who were so instrumental in bringing this activity to our repeater. I'm your net control operator for this evening and my name is _____, and my call is _____.

This net is sponsored by ARES of Keweenaw County, and we meet each Friday evening at 9PM on the KCRA 147.315 repeater. This repeater requires a PL tone of 100 Hz and has a positive split of 600 kHz.

If you have emergency traffic, please feel free to break in at any time during the net.

The purpose of this net is to facilitate communications and information sharing among local hams, to encourage the use of emergency powered equipment, and help in training amateurs in net operations.

Echolink operators may call in by using KD8JAM-R.

We'll start by asking for stations on emergency power, mobile, or low power first. Then we will take check-ins on commercial power, and finally check-ins on echo-link. To check in, simply give us your call sign, using Standard phonetics, and let us know if you do or do not have traffic for the net.

•

- We're now ready for stations on emergency power please call now. (**list stations, and ask if I any missed**)
- Now we'll stand by for stations on commercial power. (**list stations, and ask if any I missed**)
- Now stations on echolink please check in. (**Call stations that have traffic for the net**)

Does anyone have anything else, or are there additional check-ins for the net? **Nothing heard** – I'd like to thank the following stations for checking in tonight. (**list stations**) Remember the ARES net will be on again next Friday night on this KCRA repeater.

This is _____ (**Call**) closing the net at this time and please stand by for the Skywarn net which follows immediately.

Skywarn Net

Welcome to skywarn net. I'm _____ (Name and Call) and I'm your net control tonight. The skywarn net is intended for amateurs within range of the KCRA repeater to provide training in weather spotting and reporting. This net follows the ARES net each Friday evening. These are strictly practice sessions, but we would like to hear from you with or without weather data.

We work with NOAA in Marquette and the Hiawatha Amateur Radio Club. To check in, just give us your call sign, the county from which you are reporting, and tell us if you have or don't have a report.

I'm ready for skywarn net check-ins please call know (list stations that called in --- are there any I missed?)

---- call stations for their reports ----

Does anyone have anything else for the net at this time? **Nothing heard-** I'd like to thank the following stations for checking in (list stations).

This closes the skywarn net for this Friday. Thanks for checking in. This is _____ (Call) closing the Skywarn net and returning the KCRA repeater back to normal amateur radio use. Good evening.
